I have finished my education within a master's degree in Computer Science, Robotics and Machine learning and I am awaiting my grade. I am ideally seeking employment in the field of Computer Vision, Machine Learning/Artificial Intelligence, or related field within Denmark.

## EDUCATION

SEP 2020 – SEP 2021

**MASTER'S COMPUTER VISION, ROBOTICS, AND MACHINE LEARNING,**  
UNIVERSITY OF SURREY, UK

Furthering my education especially within computer vision by building upon classical vision methods. Current thesis being undertaken is 3D reconstruction with complex materials from 2D dense views.

SEP 2017 – JUL 2020

**BACHELOR'S COMPUTER SCIENCE,** UNIVERSITY OF HULL, UK

Achieved a 2:1 with a 1st in all computer vision modules.

2016 – 2017

**A AND AS-LEVEL'S,** SACKVILLE SCHOOL

Three A-Levels in Mathematics, Chemistry, Physics and Biology (AS-Level)

2014-2015

**GCSE'S,** CRANBROOK SCHOOL

11 GCSEs achieved

## EXPERIENCE

JAN 2019 – FEB 2020

**APEX DISCORD,** COMMUNITY MANAGER

Managing of a 5000-person online community for a game server. Moderating of community issues and events.

TWO WEEKS SUMMER 2015

**FERREXPO PLC,** WORK EXPERIENCE

Summer work experience for two weeks in Ukraine supplying support to pelletizing iron ore production facilities.

#### ONE WEEK 2015

##### THE LUNAR CINEMA, SALES

Sales of food and general customer service.

#### ONE WEEK SUMMER 2014

##### FOLLY WILDLIFE RESCUE, VOLUNTARY WORK

Cleaning and maintenance of animal enclosures and feeding of wild animals.

#### ONE WEEK SUMMER 2014

##### LAST CHANCE ANIMAL RESCUE, VOLUNTARY WORK

Cleaning and maintenance of animal enclosures. Feeding and finding homes for domestic animals.

## SKILLS

### Tools and Code

- C# 
- C++ 
- MATLAB 
- Debugging 
- Nvidia Digits Caffe 
- Python 

### Other Skills

- Microsoft Office Programs 
- Classical Vision techniques 
- Machine Learning 

## PERSONAL INTERESTS

### Sports

I enjoy team sports and was on the University of Hull basketball team. I found team sports enjoyable as it allowed collaboration and had a very social environment. I have also been trying to get back into swimming as I used to do it competitively when I was younger.

I also spend a lot of time kayaking and cycling and hope to continue that when I move to Denmark.

### Games

In my spare time I enjoy playing a variety of games, mostly competitive multiplayer games that require strategic thinking and team play. Through gaming I have been able to forge lasting relationships with diverse people from across the world. I also enjoy drawing whether this is on paper or creating animations.

### Languages

I am fluent in English and have started learning Danish with the support of my Danish girlfriend. I also speak French at a basic level.
